Multi-Track USB Interface
and Analogue Mixing Console
Mix, record and produce your Signature sound

Drawing on over 40 years experience in live sound mixing, the Signature Multi-Track mixers bring together an ultra-low latency USB recording interface, a superb analogue mixer and the unrivalled British sound of Soundcraft. Whether you’re recording a live gig or a studio rehearsal, mixing a band, or producing a demo, Signature Multi-Track mixers deliver great sounding results thanks to high-grade Ghost® preamps, the most musical EQ in the business, pristine Lexicon® effects and powerful dbx® dynamics - all designed to let you discover your Signature sound.

The legendary British sound

Ultra-low latency USB interface

Iconic Soundcraft® Ghost Mic Preamps

Soundcraft® Sapphyre British EQ

Award-winning Lexicon® effects

Built tough for the long haul

Switchable HI-Z instrument inputs

Flexible Soundcraft® GB audio routing

Key features

• High-Performance 12- or 22-input small format analogue mixer with onboard effects and multi-track USB recording and playback
• 14-in/2-out (12 MTK) and 24-in/22-out (22 MTK) ultra-low latency USB playback and recording interface
• Iconic Soundcraft® Ghost mic preamps with ultra-low noise performance
• Lexicon® Effects Engines featuring award-winning Reverbs, Delays, Choruses and Modulations
• Renowned Soundcraft® Sapphyre British EQ with sweepable mid-bands per channel
• dbx® Limiters (High ratio Compressors) on input channels
• Switchable Hi-Z inputs for guitars, basses and other instruments
• Hi-Pass Filters (low-cut and 48V Phantom Power on all mic channels)
• Comprehensive Soundcraft® GB series audio routing with Audies (flexible pre/post switching) and subgroups with switching and dedicated outputs
• Smooth premium-quality faders (100mm on 22 MTK)
• Robust metal construction for tour-grade build quality and reliability
• Internal universal power supply

Powered by

Need effects? You’ve got Lexicon®. With the Signature Series you don’t just get generic, dull processing algorithms. The Lexicon® Effects Engine (Dual-Effects Engines on Signature 22 MTK) powers your mix with studio-grade Reverbs, Delays, Choruses and Modulations, designed to add a truly professional edge to your productions. Also included is the Lexicon MPX-L plug-in for native processing on your PC or Mac.

We understand the importance of reliability. Every night, Soundcraft consoles run the biggest shows in the world. With a robust metal construction and premium-quality components, Signature Series Mixers are built to withstand the rigours of extensive use and deliver years of maintenance-free operation.

To get every element sounding great in your mix, from the kick drum to the lead vocal, you need a great EQ. Famed for its musical sound and unmistakable ‘British’ quality, Signature Multi-Track mixers feature our highly regarded Sapphyre EQ. Signature 12 MTK features a 3-band EQ with sweepable mid bands. Signature 22 MTK features a 4-band EQ with dual-sweepable mid bands.

Giving you maximum flexibility, Signature Series mixers feature comprehensive Soundcraft GB series audio routing with flexible pre/post switching on each Aux and subgroup, with powerful routing and switching options as well as dedicated outputs.

From humble beginnings in London more than 40 years ago and still designed and engineered in the UK, Soundcraft defined the term ‘British sound’ in live sound mixing consoles. Acclaimed Ghost mic preamps and our Sapphyre British equaliser ensure the Signature range carries Soundcraft signature sound today.

Eliminate fuses by connecting instruments direct to your mixer.

Removing the need for DI boxes or additional hardware, Signature Series mixers make it simple to get a great instrument channel sound using the switchable Hi-Z inputs, optimised for acoustic guitars, electric guitars and basses.
Whether the drummer needs a click, or the band needs to integrate pre-recorded loops and material with the live performance, it’s easily achieved via the multi-channel USB audio interface.

Connect to your laptop and use the included Ableton Live 9 Lite software to play in the additional audio.

Now you can bring your studio sound to the stage. The Signature Multi-Track USB audio interface lets you insert any VST/AU/AAX/TDM/RTAS plug-ins on any input channel with extremely low latency, so you can integrate your favourite studio plug-ins seamlessly with your live performance.

Even if you’re not recording or using the USB interface capabilities, Signature Series mixers deliver stunning sound - pristine mic pre's, super musical EQ, studio-quality effects and a feature-packed, flexible control surface with wonderful smooth, premium-feel faders.
Perfect studio recordings - your Signature sound

A superb analogue front-end for your DAW

Enjoy amazing analogue front-end sound from the Soundcraft® Ghost mic preamps to breathe life into your recorded tracks and use the Signature Series aux busses and mix capabilities to send headphone mixes and control your mix station’s speakers.

You can also listen back from your DAW with each channel’s USB return.

Capture every rehearsal. Perfectly.

Signature Multi-Track Series mixers are perfect for capturing the moment. Set-up, dial in your mix, connect your DAW and hit record to ensure ideas from writing sessions, jams and rehearsals are preserved in 24-bit quality.

Every instrument can be individually tracked so you can listen back and find those moments of inspiration.

Bring new life to old material

Resurrect old DAW multi-track recordings and remix using all the powerful features and sonic capabilities of the Signature Series.

Hook up your DAW via USB and enjoy hands-on, analogue mixing with smooth faders and all of our legendary sound and processing tools.

Upgrade your studio interface. Seriously.

You could record in the studio using a standard audio interface with a few inputs and a couple of knobs. Or you could get real.

Signature Series Multi-Track mixers combine a superior analogue mixer with a flawless USB audio interface to take your recordings to the next level.

Develop your unique Signature sound with Soundcraft.
